SUMMARY

Aspiring full-stack developer with a strong foundation in frontend technologies and growing expertise in Django for backend development. My expertise also lies in Express, React, Node.js. Experienced in building and deploying web applications, integrating encryption techniques, and working with cloud platforms like Vercel and Render. Enthusiastic about learning AWS and expanding knowledge in scalable and efficient software solutions.

EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science Engineering

Bhopal, MP

Aug. 2023 – May 2027

DAV Public School

Matriculation and Intermediate

Apr. 2018 – May 2023

PROJECTS

FishKat | *HTML/CSS, Bootstrap, Django, Python Scikit-learn*

Feb 2025 – Mar 2025

- Developing a website which detects phishing links by taking inputs and analyses the link using an AI model and through the API requests and compares both the results.
- Utilizing a responsive design, that provides users to know about the phishing links, password strength analyser using AI and various more features in development.

BlinkRAG | *Python, Django, React, Tailwind, Gemini API 2.0*

May 2025 - June 2025

- BlinkRAG is a full-stack app to upload documents, chunk & embed them into a vector DB, and ask natural language questions answered in real-time by Gemini 2.0 AI.

TECHNICAL SKILLS
